

James Bond takes the keys and gets into the man's car. He drives very fast to the car park and crashes the car, which sets off the alarm. He gets out and throws away the keys and then walks into the hotel. At the same time, the security guards run out. He finds the security office and goes inside. He takes out his mobile phone and looks at the security camera video. Then he finds a date on his phone and looks for a CD of that date. He puts the CD in the machine and looks for the same time on the video as on his phone. When he has found the correct time, he looks at the man on the video.

1. Why does Bond tie his shoelace?
2. Why does Bond crash the man's car?
3. Why does Bond go into the security office?
4. Why does Bond look at his phone in the security office?
